NDT Inspect

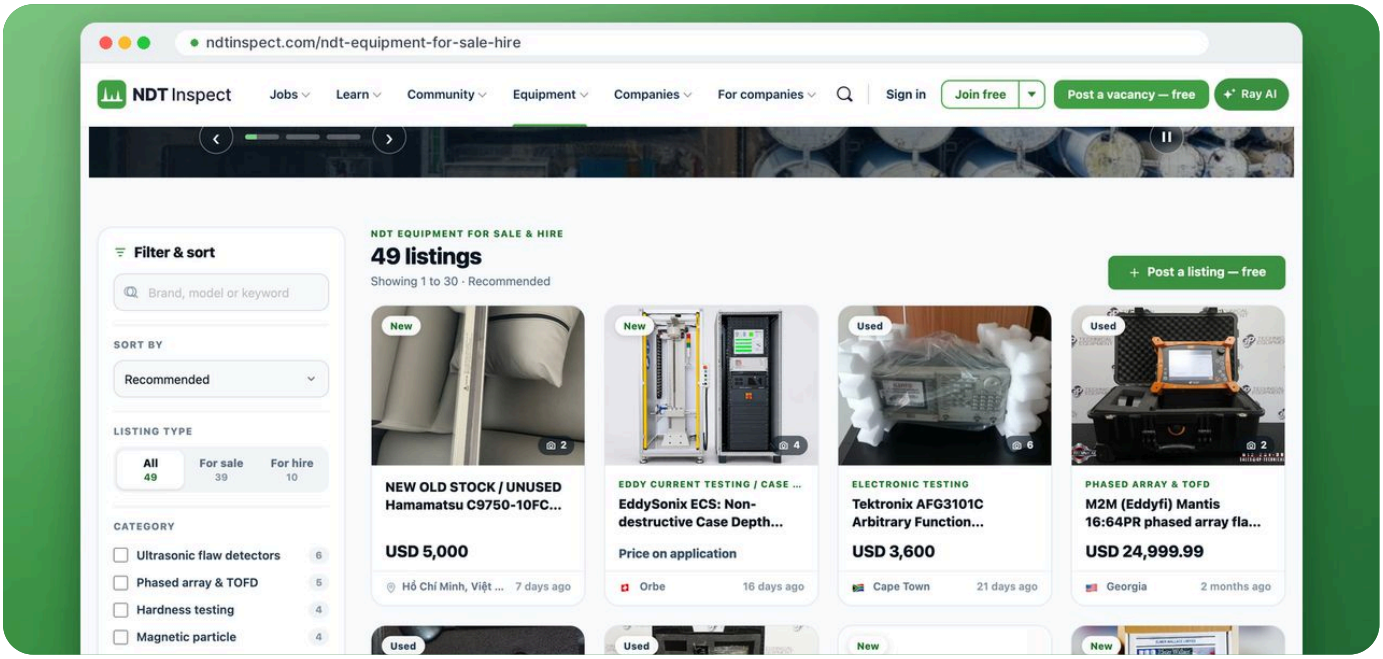
PRODUCT SHEET

FOR BUYERS AND SELLERS OF EQUIPMENT

Equipment for sale and hire

FREE

The NDT marketplace: flaw detectors, phased array units, probes, radiography equipment, calibration blocks, cameras and consumables, new and used, for sale or for hire. Filter by category, condition, price and country and contact the seller directly. Listing your own equipment is free for members.



WHAT YOU GET

- Listings for sale and for hire: new, used and refurbished
- Categories from flaw detectors and phased array to radiography, hardness testing and calibration blocks
- Filters for category, condition, price and country
- You deal with the seller directly
- Free listings for members, more live listings with the paid plans

HOW IT WORKS

1. Browse or search the listings.
2. Open a listing for pictures, condition, price and location.
3. Contact the seller. To sell or hire out, post a listing with pictures and a price.

Good to know. A Featured Listing puts your equipment first under Recommended, with a badge.
