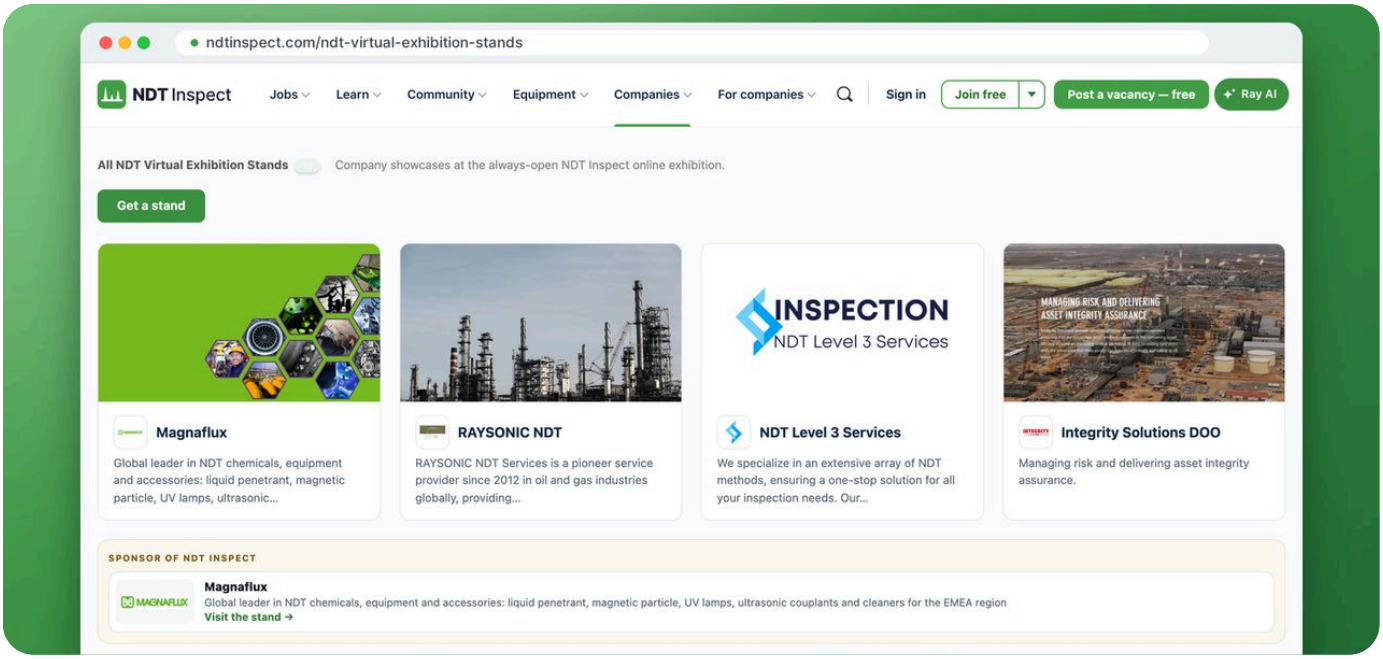
NDT Inspect

PRODUCT SHEET

FOR MANUFACTURERS, SUPPLIERS AND SERVICE COMPANIES

NDT Virtual Exhibition Stands

Your company's permanent stand in the NDT exhibition, like the one you are looking at now: a 3D booth with your logo, your story, a product showcase with pictures, datasheets and videos, your industries, contact details, reviews, a company group and an enquiry form that reaches you by email. Included with the Exhibitor and Sponsor plans.



WHAT YOU GET

- A 3D booth in the exhibition hall with your logo, cover image and product boards
- Your story, tagline, services, industries and contact details
- A product showcase: a picture, a PDF datasheet and a YouTube video for each product
- Send an enquiry and Ask about this buttons that reach you by email
- Reviews from members, your company group, your vacancies and your news on the stand

HOW IT WORKS

1. Choose the Exhibitor or Sponsor plan.
2. Fill in the stand form: name, tagline, story, services, industries, contact details, logo and cover.
3. Add your products to the showcase. The stand is live at once and joins the 3D hall automatically.

Good to know. What to prepare: a square logo, a wide cover picture, one clear picture per product, datasheets as PDF files and the links to your YouTube videos.
