PROFESSIONAL SUMMARY

Rope access technician with 8+ years of experience in UTT, PT, MT, and insulation techniques. Demonstrated expertise in improving insulation efficiency and conducting thorough inspections to ensure safety and compliance. Skilled in innovative insulation methods and advanced rope access techniques, consistently achieving substantial energy savings and client satisfaction.

SKILLS

- Rope Access
- Fabrication
- Repair
- Ut
- Pt
- Mt
- Insulation

EDUCATION

Belaire High School
Baton Rouge, LA • 05/2013
High School Diploma

WORK HISTORY

Acuren - Rope access technician level 2 UTT, PT, MT, Insulation
Houston, Tx • Current

- Implemented innovative insulation methods, leading to substantial improvements in system performance and client satisfaction
- Pioneered advanced insulation techniques, enhancing system efficiency and elevating client satisfaction
- Continuously refined methods for optimal results

Capital Ultrasound - Rope access insulator, UTT, PT, MT, insulation
Baton Rouge, La • Current

- Improved insulation efficiency for Capital Ultrasound projects, leading to substantial energy savings and client satisfaction
- Conducted thorough ultrasonic thickness testing and magnetic particle inspections, ensuring optimal insulation performance for diverse client projects

Turner Industries - R/A Tech. LVL 3, LVL 2 UTT, PT
Freeport, Tx • 08/2024 - Current

- Conducts inspections, tests, and evaluations of materials and assemblies to identify defects and issues
- Ensures safety and compliance through detailed assessments, preventing potential failures
- Utilizes advanced rope access techniques to access and inspect hard-to-reach areas
- Collaborates with team members to develop effective inspection strategies and solutions
- Implement precise rope access insulation techniques, ensuring safety protocols and quality standards are met
- Conduct thorough inspections to maintain integrity

IRISNDT - R/A LVL 3, LVL 2, UTT, PT, MT,
Houston, Tx • 11/2023 - 08/2024

- Conducts inspections, tests, and evaluations of materials and assemblies to identify defects and issues

- Ensures safety and compliance through detailed assessments, preventing potential failures
- Utilizes advanced rope access techniques to access and inspect hard-to-reach areas
- Collaborates with team members to develop effective inspection strategies and solutions
- Implement precise rope access insulation techniques, ensuring safety protocols and quality standards are met
